Smaller teams may be combined to form a full team once registration is complete.

### **PACRAT 2023 SCORING SYSTEM**

One Friday Division race and one Sunday Division race will constitute one Full Season Race. The last combined Sunday race will also constitute one Full Seasons Race. Racers will be awarded up to 5 points within their competing class, with seven women's classes and seven men's classes. Racers will be awarded 2, 3, 4 or 5 points based on where they place in their class. Racers will be awarded only 1 point for did-not-finish or falling below the class. Bonus points will be awarded if a racer beats their previous best handicap, and up-strikes/down-strikes will be applied per standard PACRAT rules. The top four out of five scores per racer will be counted for season team scores. First race class placement will be determined from last season's race results. New racers will be placed in the class they finish in during their first race.

### **PACRAT 2023 COVID PROTOCOLS**

Physical distancing and face coverings may be enforced during races this season if resort guidelines require. Temperature and wellness checks also may be required pending resort guidelines.

### **PACRAT 2023 RESORT EXPECTATIONS**

Last season, racers were expected to use their cars for base operations,, and the lodge was only to be used for rest room purpose and grab and go food service. We expect to be back closer to normal for 2023 as far as lodge use, but please pay attention to details in pre-race emails for current policies from the resorts.
