### Here’s a bit about Bob:

First of all. Thank you for having me back for season 5.

Stawicki Photography is a Sports Photography Company covering action sports that need Wind, Water, Dirt or Snow. Bob started Iwasphotographed in 2013 shooting from a boat on the Columbia River. Bob has now been shooting sequential movements professionally for over 20 years and has 28 years experience in coaching skiing and ski racing. He is a Certified Level 3 PSIA Alpine instructor, PSIA Alpine TD (trainer), PSIA-AASI Level 1 and a Level 200 USST Coach. Video Analysis is where this all begun.

For winter it’s about the snow, powder, ski racing and the local trails. During the summer, with the use of a Zodiac boat, the focus is on the Columbia River and the wound up conditions “the Gorge” provides for the Wind and Water enthusiasts.
